

Applicant: Robert H. TILLOTSON  
Appln. No. 10/517,662

**Amendments to the Claims:**

This listing of claims will replace all prior versions of listings, or claims, in this application.

**Listing of Claims**

Claim 1 (original): A lighting system comprises at least one lamp, a power control for the or each lamp, cover means for the or each lamp and control means, wherein the or each cover means is adapted to substantially surround a respective lamp and the control means are operable to move the or each cover means relative to their respective lamp, wherein the cover means is a sleeve, wherein the or each cover means is operable to receive removable strips to alter the colour of light transmitted by the or each cover means, and wherein the cover means is in contact with the respective lamp.

Claim 2 (original): A lighting system as claimed in claim 1, in which the covers comprises two sleeves, being inner and outer sleeves.

Claim 3: (original): A lighting system as claimed in claim 2, in which the 20 inner sleeve is generally square in cross-section.

Claim 4: (currently amended): A lighting system as claimed in ~~either claim 2 or claim 3~~, in which the outer sleeve is generally circular in cross-section.

Applicant: Robert H. TILLOTSON  
Appln. No. 10/517,662

Claim 5 (currently amended): A lighting system as claimed in ~~any one of claims 2 to 4~~  
claim 2, in which pockets are formed between the inner and outer sleeves.

Claim 6 (original): A lighting system as claimed in claim 5, in which the pockets are  
adapted to receive inserts.

Claim 7: (currently amended): A lighting system as claimed in ~~any one of claims 2 to 6~~  
claim 2, in which the inner sleeve comprises abutting wall elements which, when located  
in the outer sleeve, are held together to form the inner sleeve.

Claim 8 (original): A lighting system as claimed in claim 7, in which the wall elements form  
a sleeve of generally circular cross section.

Claim 9 (original): A lighting system as claimed in claim 7, in which the wall elements form  
a sleeve of generally rectilinear or square cross-section.

Claim 10: (currently amended): A lighting system as claimed in ~~any preceding claim 1~~, in  
which the control means comprise a driver and a motor.

Applicant: Robert H. TILLOTSON  
Appln. No. 10/517,662

Claim 11 (currently amended): A lighting system as claimed ~~in any preceding claim~~ 1, which comprises a plurality of lamps, and a plurality of cover means, each lamp having control means.

Claim 12 (original): A lighting system as claimed in claim 11, in which the control means are operable to receive synchronising signals from synchronisation means, to cause motors of the control means to turn the cover means in concert.

Claim 13: (currently amended): A cover means according to ~~any one of claims 1 to 13~~ claim 1.

Claim 14: (currently amended): A kit comprising cover means and control means as described in ~~any one of claims 1 to 12~~ claim 1.

Claim 15 cancelled.

Claim 16 (new): A lighting system comprises at least one lamp, a power control for the or each lamp, cover means for the or each lamp and control means, wherein the or each cover
